1 Introduction

ISDEP (Improving Security By Democratic Participation) is based on the EU Commission's Counter Terrorism strategy. It aims to prevent people turning to terrorism by tackling the factors or root causes which can lead to radicalisation and recruitment, in Europe and internationally.

The project partner member states working in ISDEP demonstrate an excellent geographical spread, involving members from northern, southern and Eastern Europe.

ISDEP will work with you as front line sector staff through the development of a number of resources for training to raise awareness around the processes that lead to radicalisation. This will allow you to recognise, respond and challenge the ideology and narratives associated with any form of terrorism, ultimately creating a safeguarding mechanism for vulnerable individuals.

This is a tutorial for front line practitioners how to work with the ISDEP e-learning platform.
