

# TRAINING OF THE TRAINERS

Vicenza, Italy, 18-22 September 2017

**Center of Excellence for Stability Police  
Units, Caserma dei Carabinieri Gen.  
Antonio Chinotto**

## Program

The training course for trainers (ToT) will take place in Vicenza, Italy, at CoESPU (Caserma Generale Antonio Chinotto of Carabinieri). The working language will be English. The training program has the primary objective to provide competence and skills to prevent and contrast the emergence of radical phenomena within the European prisons, through the use of multifaceted, multidimensional and multidisciplinary methods and tools. Trainers from 9 European countries will be acquainted with the most advanced methods to combine judicial and police cooperation as part of the judicial and psycho-social prevention activities.

We will use proactive blended training methodology, integrated with Living Lab approaches, using the new [Hermes](#) Learning Management System, which will allow participants to customize and deliver then tailor-made cascade training at national level and become part of a practitioner's community of counter-radicalisation experts at pan-European level.

This activity, supported the DG Justice and DG Home is also part of the RAN National Assistance program to the Italian Ministry of Justice.

# PROGRAM
